

網路版的客戶收到貨後，會一併收到一張 License，上面註明權限管理者 (License Coordinator) 的 E-mail address。

建立權限檔案 (License file)

1. 請到 <http://www.minitab.com/en-TW/support/licensing/default.aspx>，先點擊右上方 Sign In

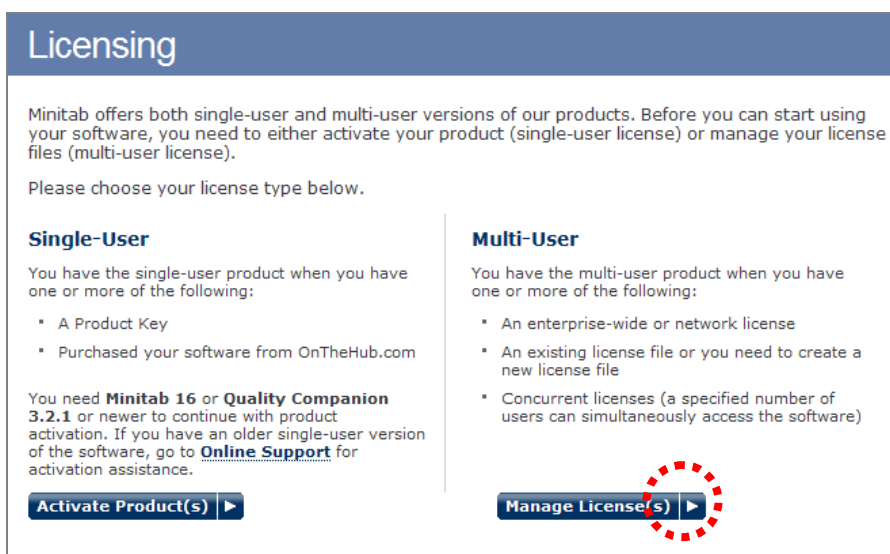

輸入權限管理者的 E-mail address 和密碼登入。如果您忘記您的密碼或是第一次使用請在下列畫面中點擊 Forgot Password?

觀看權限管理者密碼設定文件：

<http://minitab.com.tw/Files/ForgotPassword.pdf>

2. 並且點擊右下方 Manage license files 的連結。

Licensing

Minitab offers both single-user and multi-user versions of our products. Before you can start using your software, you need to either activate your product (single-user license) or manage your license files (multi-user license).

Please choose your license type below.

Single-User

You have the single-user product when you have one or more of the following:

- A Product Key
- Purchased your software from OnTheHub.com

You need **Minitab 16** or **Quality Companion 3.2.1** or newer to continue with product activation. If you have an older single-user version of the software, go to [Online Support](#) for activation assistance.

Multi-User

You have the multi-user product when you have one or more of the following:

- An enterprise-wide or network license
- An existing license file or you need to create a new license file
- Concurrent licenses (a specified number of users can simultaneously access the software)

Activate Product(s) **Manage License(s)**

接著於下方畫面中點擊 Manager License

Multi-User Licensing

For an overview of what you need to do to complete your multi-user installation, see the [Quick Start Installation Guide](#).

Manage Licenses

License files are required for all multi-user installations. Click **Continue** to create new or renew existing license files.

You must have permission to manage license files. Please contact your license coordinator to gain access permissions.

[▶ Continue](#)

Downloads

All multi-user installations require both the Minitab License Manager and the client software. Additionally, you can download the Minitab License Borrowing Tool.

PLEASE READ IMPORTANT NOTICE ABOUT BORROWING AND LICENSE COMPLIANCE

Due to limitations discovered in the FlexLM/FlexPublisher license management software by Acrecco (formerly Macrovision), upon clicking **Finalize** and appending your license file, you will become responsible for compliance control over the number of authorized users permitted if you are using borrowing functionality.

I have read and acknowledge this Important Notice.

CAUTION: Before you click Finalize, make sure the license information is correct. After you click Finalize, you cannot change the license information.

確認無誤之後，請閱讀權限須知，確認瞭解權限建立機制後請勾選已知方塊，再點擊 Finalize 建立您的權限檔案。

請注意，一旦您點擊「Finalize」，您的權限檔案就已經被建制成功，並且不能再修改。

- v. 您會在下方頁面中看到 3 種存取權限檔案的方式，我們建議使用 Method1，

Method 1: **Save the file to the desktop**

Save this license information to the desktop in a file called *copytoexistinglicensefile.txt*. Open the file and copy the text starting with and including the word "INCREMENT" to the end of the file. Then open the *minitab.lic* on the computer that will host the license, paste the copied text *after* the existing text in the license file, and save the changes to the *minitab.lic* file. Restart the service so it will use the modified license file.

Note: The default location for *minitab.lic* is C:\Program Files\Minitab\License Manager. The location is specified when you install Minitab License Manager.

Save 

- a) 點擊 Save，將檔案存放在您容易存取的地方，例如桌面。
- b) 將檔案重新命名為 *minitab.lic* (LIC 檔)，便完成權限檔案建立

安裝 Minitab License Manager

1. 關閉所有其他應用程式，包含防毒軟體。
2. 到 Minitab 原廠網站中下載 Minitab License Manager (需要先登入)

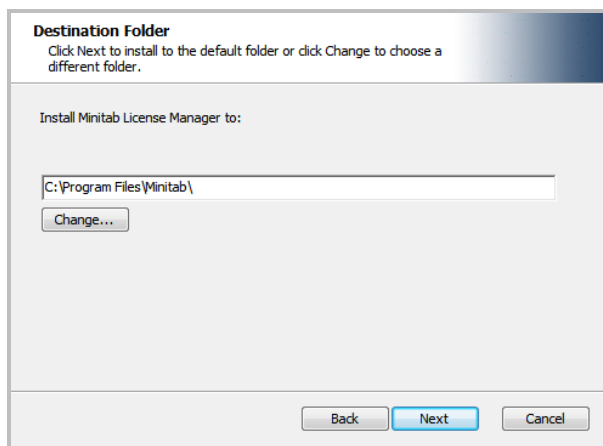

<http://www.minitab.com/en-TW/support/licensing/multi-user/downloads/default.aspx>

Minitab License Manager	Minitab 16 Quality Companion 3
The Minitab License Manager, which is required for all multi-user installations, ensures that the number of concurrent users never exceeds the licensed number of seats. See the Installation Guide for your product for more details.	<ul style="list-style-type: none">▶ English▶ Chinese (Simplified)▶ French▶ German▶ Japanese▶ Korean▶ Spanish
	6 MB

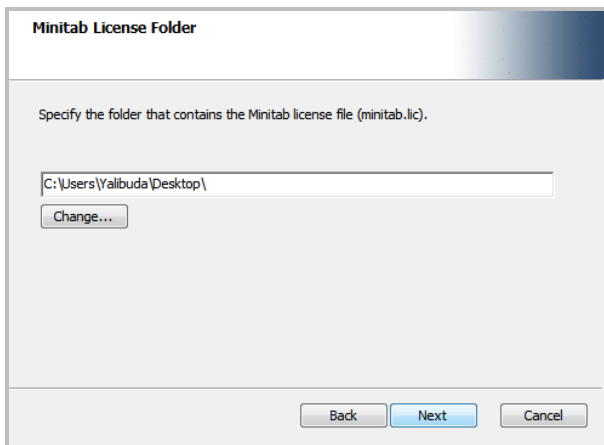

安裝過程如下：

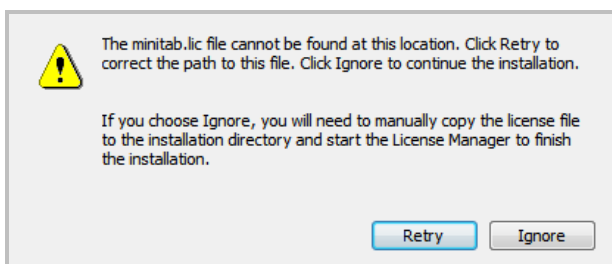

執行 minitabenlicensmanager.msi，進入左側畫面，點擊 Next。

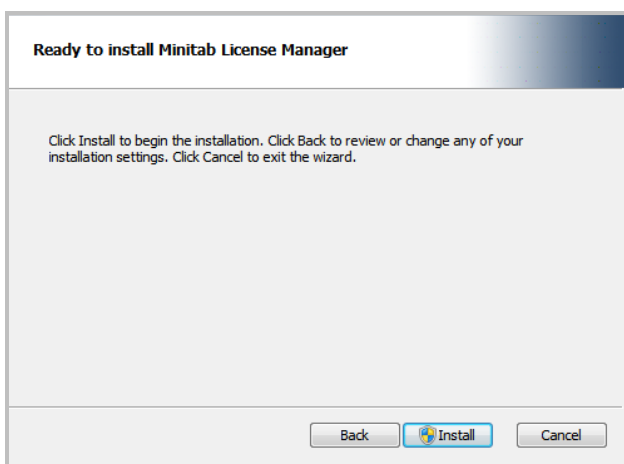

決定 License Manager 安裝路徑 (建議使用預設路徑)

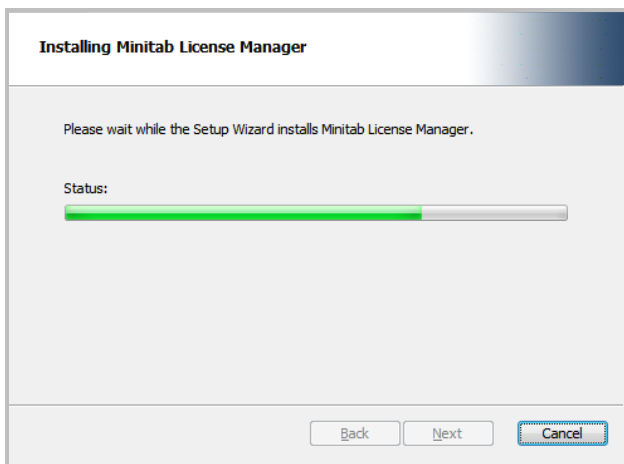

安裝過程中，會要求您輸入 minitab.lic 路徑，按下 Next。

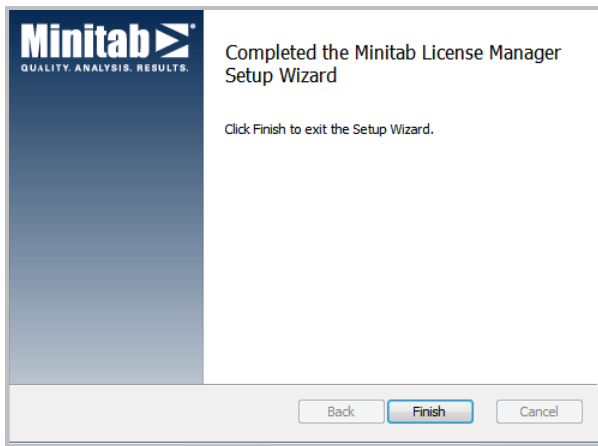

若出現警告訊息，可直接按下 Ignore 略過，因為我們後來會把權限檔案放在 License Manager 資料夾下。

點擊 Install 開始安裝。

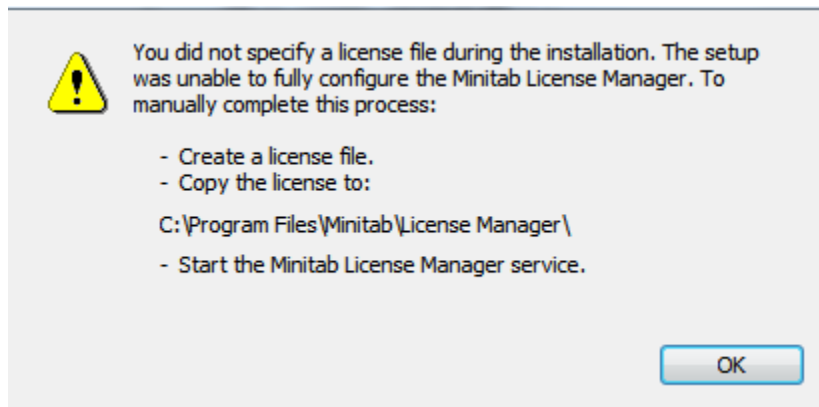

等待程序完成。

按下 Finish 完成安裝。

3. 若方才於安裝 License Manager 時未給定正確的權限檔案路徑，則會出現下列訊息：

毋需擔心此訊息，此訊息只是告知我們尚未給定權限檔案。

4. 將之前建立的「minitab.lic」放到 License Manager 資料夾下 (預設路徑為 C:\Program Files\Minitab\License Manager)
5. 點選 開始> 控制台> 系統管理工具> 服務。於清單中，找尋「Minitab License Manager」，點擊右鍵選「啟動」，便完成 License Server 建立。
